Simon Ojugo
Full Stack software Developer

West Sussex, United Kingdom
simonojugo@gmail.com
LinkedIn: linkedin.com/in/simon-ojugo-07762a189
Portfolio: https://ojugo19.github.io/

Professional Profile

Motivated Software Development student with hands-on training from an intensive coding bootcamp, building responsive web applications using modern technologies. Experienced in developing end-to-end projects, writing clean and maintainable code, and collaborating using version control and agile practices. Passionate about continuous learning and eager to contribute to a collaborative development team while delivering high-quality software solutions.

Technical Skills

Languages: JavaScript
Web Technologies: HTML, CSS, JavaScript
Backend & Databases: Node.js, Express.js, MongoDB
Tools: Git, GitHub, VS Code, Linux
Core Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems

Projects

Portfolio Website
Developed a responsive personal portfolio showcasing projects and technical skills.
Technologies: HTML, CSS, JavaScript, GitHub Pages
https://ojugo19.github.io

Weather App
Built a weather web application displaying real-time, hourly and 7-day forecasts using APIs. Implemented geolocation, asynchronous data fetching, and dynamic UI updates.
Technologies: HTML, CSS, JavaScript
https://ojugo19.github.io/Weather_app/

To-Do List App
Created a task management application allowing users to add, complete and manage

daily tasks while practicing DOM manipulation and application logic.
Technologies: HTML, CSS, JavaScript
https://ojugo19.github.io/TO_DO_APP/

EXPERIENCE

January 2021-Present, Shaw Care Group, Forest View, Southway, 9SU Burgess Hill,
Contact: 01444245749

● Mobility: Supporting service users to move from place to another

● Conducting investigations at quarry sites to verify compliance in line with best practices responsible for
operation by existing mining operators.
● Carry out different testing on materials before use for construction
● Facilitated the evaluation and compilation of hydrological data from various borehole drilling companies.
● Synthesized rural dwellers on the proper utilisation of subterranean water sources.
● Maintained accurate data fees for haulage and surface rent paid by various quarrying companies operating
within the state.

Education

Software Development – TechNative Academy, Haywards Heath, UK *(2026 – Present)*

January 2021 Coventry University, Coventry, Master of Science, Supply Chain Management and
Logistics with Merit grade
October 2017 Nasarawa State University (NSUK), Keffi, Bachelor of Science, Geology/Mining with a
GPA of 3.61
August 2009, Auchi Polytechnic, Auchi, Ordinary National Diploma, Mineral Resources Engineering
Technology

Certifications

Software Development Certification – *In Progress*
UK Driver License
Chattered Management Institute, UK

Soft Skills

Problem Solving • Logical Thinking • Communication • Team Collaboration • Willingness to Learn
